

## Sustaina PVC Free Carpet Tile Backing (VF)

**DESCRIPTION:** Sustaina is a carpet tile backing which utilizes EVA pre-coat and mid-coat in conjunction with an attached transitional polyester fiber nonwoven material felt cushion providing a PVC free backing option for most modular products.

**FEATURES:** Sustaina is designed for commercial applications where PVC free products are preferred.

- Red List-free
- Increased comfort underfoot and extended carpet life
- Product Versatility: Sustaina is available on many patterns and styles
- Wet/Dry: Performance properties are not affected by moisture
- High performance warranty
- Backing is comprised of high quality polyester fiber made from 95% post-consumer recycled plastic bottles.

**APPLICATIONS:** Recommended for Corporate, Retail, Hospitality and Food service.
