

## UNITARY with Woven Polypropylene

**DESCRIPTION:** Unitary with woven polypropylene is a high performance backing composed of enriched latex with an attached secondary backing.

**FEATURES:** Unitary with woven polypropylene is designed for extra heavy foot or rolling traffic where increased edge ravel and tuft bind characteristics are required.

- Suitable for a number of patterns
- Increased tuft bind over standard products
- Increased dimensional stability compared to standard backings
- The most economical of high performance backings
- High performance warranty

**TYPICAL END USES:** Healthcare, Institutional, Food Service

SPECIFICATIONS:	
Thickness	2/32"
Weight	30 to 50 oz. Yard
Secondary	10 pick woven polypropylene
Width	12 foot

**Adhesive:** AtlasMasland – Time Saver 2950
