Traffic Class	Heavy
FHA Class	2
Material content	100% Pre-Consumer Synthetic Fiber – Needle-punched and Thermal Bonded
Indoor Air Quality	CRI Green Label Plus Certified

FLAME CERTIFICATION

Pill Test	Pass	DOC-FF 1-70
Radiant Panel	Class I	ASTM E648
Smoke Test	<450	ASTM E662

THERMAL INSULATION

R-Value	2.01
---------	------

EcoSoft is made from 100% pre-consumer synthetic fiber. EcoSoft will not support the growth of mold or mildew and has excellent thermal insulation and acoustical properties. EcoSoft provides comfort underfoot, is less fatiguing than direct-glue-down installations and offers quick and easy installation.

This product is designed for use in commercial and hospitality applications. It should be installed using conventional stretch-in installation only.
