# QUIET (( )) DOWN

## Make a quiet statement with Calibré

Now even the most public space can enjoy the beauty of hardwoods without sacrificing noise levels. Calibré offers luxury woodgrain planks created with Quiet Down Technology, a sound-reduction underlayment pre-attached to every plank. Calibré Quiet Down products reduce sound transmission to lower levels and ambient room noise.

Sound control is good news for high traffic areas. Even better, the same technology means enhanced underfoot comfort which is great for hospitality, senior living, and multi-family environments.

Quiet Down's floating floor installation and SturdyCore construction hide minor subfloor imperfections and can be installed over many existing hard surfaces—perfect for remodels. You get a rigid, dimensionally stable floor that installs in a snap utilizing our TreadFast system, dramatically reducing time, and will not be damaged by moisture.

All Quiet Down products are finished with our Ironclad ceramic PU topcoat infused with ceramic particles providing enhanced stain and abrasion resistance for years of easy, worry-free maintenance. Combined with the hygienic boost of Inhibi-Max treatment to fight bacterial growth throughout the product, Quiet Down is an excellent candidate for projects that would never work with traditional wood floors.

You can breathe easy knowing that Quiet Down is FloorScore certified and no harmful phthalates are used in the production of the flooring, ensuring a safe product for interior environments.

Available in a selection of 16 rich wood tones, all backed by Masland Contract's commercial warranty. Order your samples at 888-633-4770, or [maslandcontract.com](http://maslandcontract.com).

### SENIOR LIVING

Lend warmth and sophistication with the look of wood that is not affected by moisture. Thanks to Quiet Down Technology, underfoot comfort is combined with improved sound reduction.

### HOSPITALITY

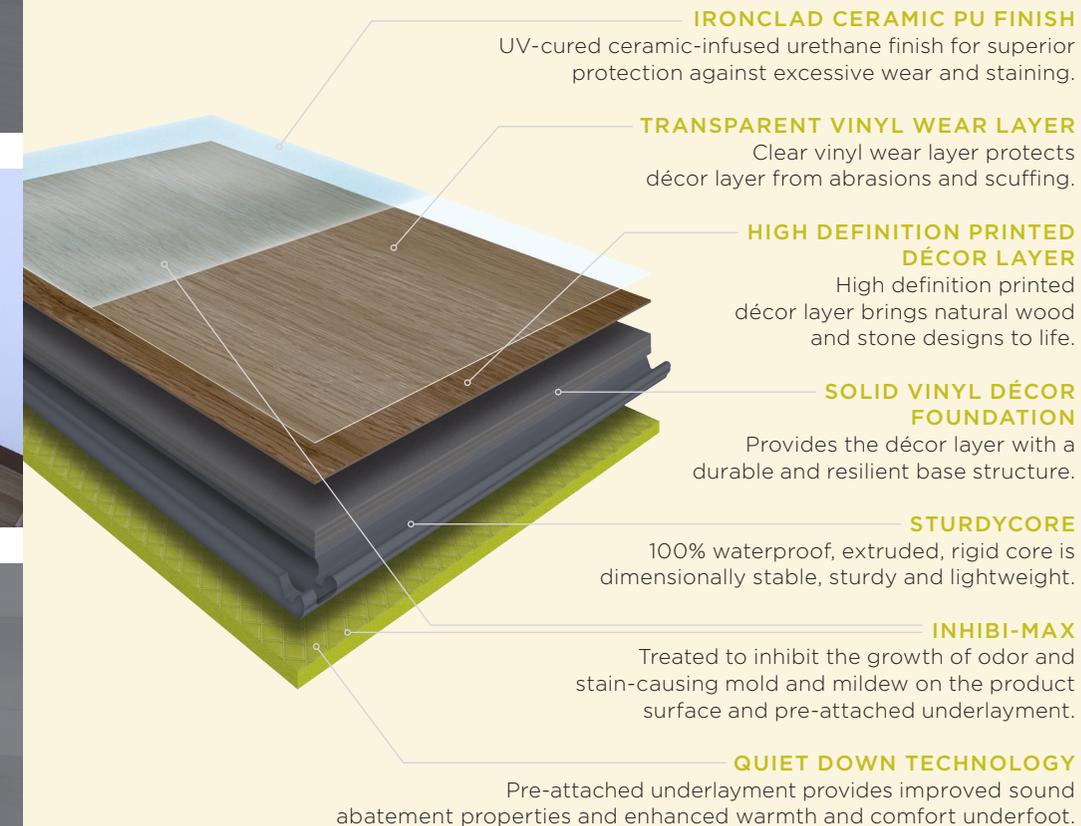

Create inviting and relaxing spaces that stand up to abuse. Calibré delivers the clean look and easy maintenance of hard surface flooring with the sound absorbing properties normally associated with soft surfaces.

### MULTI-FAMILY

When you dress your properties with Calibré Quiet Down flooring, you deliver an on-trend statement suitable for even the top floor. Our TreadFast click system ensures reduced installation time.
